

R12.2.9 Oracle Manufacturing Functional Foundation

Course Contents

1: Oracle Manufacturing Functional Foundation

- Oracle Manufacturing Functional Foundation
- Overview
- Activity 1-1: Log into the Oracle Instance

2: Overview

- Overview
- Activity 1-1: Log into the Oracle Instance

3: Applications Basics

- Applications Basics
- Activity 2-1: Log into SQL Developer

4: ERDs and Applications Technology

- ERDs and Applications Technology
- Activity 3-1: SQL Developer Inquires

5: Open Interfaces and APIs

- Open Interfaces and APIs

6: Oracle Inventory

- Oracle Inventory
- Defining Organizations
- Activity 5-1: Define Sub inventory and Locator.
- Activity 5-2: Define Items
- Activity 5-3: Miscellaneous Transactions

7: Oracle Bills of Material and Engineering

- Oracle Bills of Material and Engineering
- Bill of Material Resources and Departments
- Activity 6-1: Create Bills of Material
- Activity 6-2: Cost Types
- Activity 6-3: Create Resource
- Activity 6-4: Create a department.
- Activity 6-5: Create Routings
- Activity 6-6: Create Engineering Change Order

8: Oracle Cost Management

- Oracle Cost Management
- Defining Item Costs
- Activity 7-1: Create Material Overhead
- Activity 7-2: Item Cost, Cost Type Association
- Activity 7-3: Assembly Cost Rollup
- Activity 7-4: Update Item Costs
- Activity 7-5: Launch Cost Manager

9: Oracle Quality

- Oracle Quality
- Collection Plan Window
- Activity 8-1: Collection Elements
- Activity 8-2: Quality Collection Plan

10: Oracle Work in Process

- Oracle Work in Process
- Work in Process Transactions
- Activity 9-1: Create two Discrete Jobs
- Activity 9-2: Complete Discrete Jobs

11: Oracle Order Management

- Oracle Order Management
- Activity 10-1: Create Sales Order

12: Advanced Supply Chain Planning

- Advanced Supply Chain Planning
- Collections: Workbench
- Table and Entity Relationships
- Activity 11-1: Add a Planner Code
- Activity 11-2: Master Demand Scheduling
- Activity 11-3: Create ASCP Class Collection Group
- Activity 11-4: Run Collection
- Activity 11-5: Create an Unconstrained Plan
- Activity 11-6: Releasing Recommendations
- Activity 11-7: View Discrete Jobs Created
- Activity 11-8: Find requisitions

13: Oracle Purchasing

- Oracle Purchasing
- Suppliers Window
- Activity 12-1: Auto create a Purchase Order

- Activity 12-2: Complete a Receipt Transaction
- Activity 12-3: Inspect the Purchase Order Material using Oracle Quality
- Activity 12-4: Deliver Material into a Sub inventory.
- Activity 12-5: View Quality Results
